# MATERIAL SAFETY DATA SHEET **IDENTITY- STANDARD DRY CHEMICAL**

#### **SECTION I. Chemical Product and Company Identification**

Standard Dry Chemical Fire Extinguishant Product Name:

Sodium Bicarbonate, STD Synonym: Manufacturer: **Shield Fire Protection** 110 Kings Road

Kings Mountain, NC 28086

Telephone: 704.739.7415

Emergency: CHEMTREC 1.800.424.9300

Revision Date: 10/21/08

## **SECTION II. Hazard Identification and Emergency Overview**

Emergency Overview: Product is a white, fine solid powder that is odorless.

Adverse Health Effects and Symptoms: Product is a mild irritant to the respiratory system and eyes. Symptoms may include shortness of breath, coughing, and irritation to the eyes, lungs, and skin. Ingestion may cause gastric irritation and fluid retention (edema).

Exposure Guidelines:

HA PEL A **CGIH TLV** Particulates Not Otherwise Classified Sodium Bicarbonate Particulates Not Otherwise Classified

#### **SECTION IV. First Aid Measures**

Eye Exposure- Flush eyes with water until pain-free. If irritation develops or persists, seek medical attention.

Skin Exposure- Wash with plenty of soap and water. If irritation develops or persists, seek medical attention.

*Inhalation*- Move victim to fresh air. If irritation develops or persists, seek medical attention.

*Ingestion*- If victim is conscious and alert, give 2-3 glasses of water to drink. Do not induce vomiting. If vomiting occurs and the victim is conscious, give additional water to further dilute the chemical. Prevent aspiration of swallowed product by laying victim on side with head lower than their waist. Seek medical attention. Do not leave victim unattended.

Medical Conditions Possibly Aggravated by Exposure- Inhalation of the product may aggravate existing chronic respiratory conditions such as asthma, emphysema, or bronchitis. Contact with the skin may aggravate an existing skin disease. Chronic overexposure may cause pneumoconiosis ("Dusty Lung" disease).

## **SECTION V. Firefighting Measures**

Extinguishing Media: N/A. This product is an extinguishing agent. It is nonflammable and noncombustible. Special Firefighting Procedures: N/A

*Unusual Fire and Explosion Hazards:* This product may decompose in fire and release carbon monoxide and carbon dioxide (Refer to Section X).

Sensitivity to Mechanical Impact or Static Discharge: None

## **SECTION VI. Accidental Release Measures**

In case of accidental release, use the appropriate respiratory protection. Clean up the product using a vacuum or wet sweep and shovel to minimize the generation of dust. Bag or drum the product for disposal. If the product is used and/or contaminated, use personal protective equipment and containment means that are appropriate for the composition of the mixture. Product should be prevented from entering waterways.

## **SECTION VII. Handling and Storage**

Avoid eye, respiratory, and skin exposure. Use the appropriate personal protective equipment when handling. Wash thoroughly after handling (Refer to Section VIII). Product should be stored in its original container or extinguisher. When the product is contained under pressure (e.g., an extinguisher), inspect the container for rust or damage that may compromise the container integrity. Do not store the product in high humidity and do not mix with other extinguishing agents.

## **SECTION VIII. Exposure Controls and Personal Protection**

During the use of this product on fires, exhaust gases and products of incomplete combustion are the main respiratory hazards. In the manufacture of this product, employers and employees must use their collective judgment in determining the on-the-job settings where the use of a dust mask or respirator is prudent. The need for respiratory protection is not likely for short-term use in well-ventilated areas.

*Respiratory Protection:* Use an N-95 dust mask for limited exposures and use air-purifying respirators with high efficiency particulate air filters (HEPA filters) for prolonged exposures.

Eye Protection: Wear chemical goggles or full-face air-purifying respirator.

*Skin Protection:* Use nitrile, latex, or similar gloves and coveralls to minimize exposure. Good personal hygiene practices are essential. After handling the product, avoid food, tobacco products, or other means of transferring the product from hand to mouth until after thoroughly washing.

# MATERIAL SAFETY DATA SHEET IDENTITY- STANDARD DRY CHEMICAL

## **SECTION IX. Physical and Chemical Properties**

Appearance and Odor: White fine powder that is odorless.

Apparent Density: 0.90

Solubility: The product is coated with water repellant silicone. Not immediately soluble in water.

pH: Approximately 8 - 9 for a 1% solution

Flash Point: N/A Flammability: N/A Vapor Pressure: N/A Boiling Point: N/A

Explosive or Oxidizing Properties: None

#### **SECTION X. Stability and Reactivity**

Stability: Stable

Incompatibles: Reacts with strong acids to form carbon dioxide, creating a possible asphyxiation hazard. Hazardous reaction may occur from contact with monoammonium phosphate or sodium potassium. Decomposition Products: This product may decompose in fire and release carbon monoxide and carbon

dioxide.

Hazardous Polymerization: Will not occur

Hazardous Reactions: None

### **SECTION XI. Toxicological Information**

Acute Toxicity: Sodium bicarbonate LD50 (rat): 4220 mg/kg body weight.

TDLo (infant): 1260 mg/kg body weight, symptoms including

pulmonary and kidney damage.

Target organs in humans: respiratory system and eyes. The product is a mild irritant to eyes and respiratory system. No indication that the product causes sensitization.

Chronic Toxicity: Pneumoconiosis, or "Dusty Lung" disease, may result from chronic exposure to any dust.

Reproductive Toxicity: The reproductive system was not found to be a target organ in humans. Intraperitoneal TDLo (mouse): 40mg/kg body weight, teratogen

# **SECTION XII. Ecological Information**

Ecotoxicity: No known negative effects.

Degradability: Degrades rapidly in wet or humid environment.

Bioaccumulation: Little, extent unknown.

Mobility in Soil: Water-soluble. May leech in to groundwater.

#### **SECTION XIII. Considerations for Disposal**

This product is not a RCRA characteristically hazardous or listed hazardous waste. Dispose of according to state or local laws, which may be more restrictive than federal regulations. Be aware that product used on a fire may be altered or contaminated and thereby require different disposal considerations.

#### **SECTION XIV. Transportation Information**

This product is not defined as a hazardous material under U.S. Department of Transportation 49 CFR 172, or by Transport Canada "Transportation of Dangerous Goods" regulations.

Please Note: Although this material is not considered hazardous, when contained in a stored pressure fire extinguisher pressurized with a nonflammable gas, the extinguisher itself is considered hazardous material by the U.S. Department of Transportation (USDOT) and Transport Canada (TC). Packaging of the fire extinguisher shall be identified with the Proper Shipping Name (Fire Extinguisher) and the UN Identification Number (UN 1044). The USDOT hazard class/division is 2.2 Nonflammable Gas. Packing Group = N/A

## **SECTION XV. Regulatory Information**

International Inventory Status: Sodium bicarbonate is on the following inventories

Country Age ncy

U.S.A. TSCA Canada DSL

Europe EINECS/ELINCS

Australia AICS

Japan M ITI South Korea KECL

European Risk and Safety Phrases:

EU Classification- Harmful

R Phrases- 22 Harmful if swallowed

36/37 Irritating to eyes and respiratory system

S Phrases- 26 In case of contact with eyes, rinse immediately with plenty of

wat er and seek medical advice

#### U.S. Federal Regulatory Information:

None of the chemicals in this product are under SARA reporting requirements or have SARA Threshold Planning Quantities or CERCLA Reportable Quantities, or are regulated under TSCA 8(d).

## State Regulatory Information:

Texas

Chemicals in this product are covered under the specific State regulations noted:

laska Designated Toxic and Hazardous Substances- None

California Permissible Exposure Limits for Chemical Contaminants- None

Florida Substance list- Mica dust
Illinois Toxic Substance List- None
Kansas Section 302/303 List- None
Massachusetts Substance list- Mica dust

Minnesota List of Hazardous Substances- None

Missouri Emplo yer Information/Toxic Substance List- None

New Jersey Right to Know Hazardous Substance List- None

North Dakota List of Hazardous Chemicals, Reportable Quantities- None

Pennsylvania Hazardous Substance List- None
Rhode Island Hazardous Substance List- Mica dust
Hazardous Substance List- No
West Virginia Hazardous Substance List- None

Wisconsin Hazardous Substance List- None
Toxic and Hazardous Substances- None

California Proposition 65- No component is listed on the California Proposition 65 List

#### **SECTION XVI. Other Information**

This MSDS conforms to the requirements under U.S., U.K., Canadian, Australian, and EU Regulations or Standards. It conforms to the proposed 2003 ANSI Z400.1 format.

The information contained herein is given in good faith as typical values and not as product specifications. No warranty, either expressed or implied, is hereby made.
