#### SECTION 1: CHEMICAL PRODUCT AND COMPANY INFORMATION

**Company Address:** 

8125 Cobb Center Drive

Kennesaw GA 30152

Rennesaw, orr 50152							
Product	Information: 800-TECH-401	Emergency:	(Chemtrec) 800-424-9300				
Custom	er Service: 800-645-5244	Revision Date:	February 10, 2007				
Product Identification							
STATIC FREE <sup>TM</sup> PLAST-N-GLAS							
	(00						
Product Code: ES1668, ES1	0000						

SECTION 2: COMPOSITION, INFORMATION	ON ON INGREDIENTS		
Chemical Name	CAS#	Wt. % Range	
Deionized water	7732-18-5	50.0-95.0	
Isopropanol	67-63-0	1.0-20.0	
Propane	74-98-6	1.0-20.0	
Isobutane	75-28-5	1.0-20.0	
Propylene glycol n-butyl ether	5131-66-8	1.0-20.0	

# SECTION 3: HAZARD IDENTIFICATION

Emergency Overview: Clear, colorless liquid with fresh odor. This product is not flammable. Vapors released may become flammable if allowed to accumulate. Liquid will irritate eyes and skin under repeated or prolonged exposure. Breathing high concentrations of product vapor may produce drowsiness and a headache. Potential Health Effects:

Eyes: Liquid, aerosols and vapors of this product are irritating and can cause pain, tearing, reddening and swelling accompanied by a stinging sensation. Contact causes skin irritation. Skin:

Ingestion: Harmful if swallowed. Irritating to mouth, throat and stomach. May cause vomiting.

Inhalation: Harmful if inhaled. High concentrations of vapors in immediate area can displace oxygen and can cause dizziness, unconsciousness, and even death with longer exposure. Keep people away from such vapors without self-contained breathing apparatus.

Pre-Existing Medical Conditions Aggravated by Exposure: Skin, eye.

# SECTION 4: FIRST AID MEASURES

Eyes: Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Have eyes examined and tested by medical personnel if irritation develops or persists.

Skin: Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persist. Wash clothing separately before reuse.

Ingestion: Swallowing less than an ounce will not cause significant harm. For larger amounts, do not induce vomiting, but give one or two glasses of water to drink and get immediate medical attention.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

#### SECTION 5: FIRE FIGHTING MEASURES

US Flame Projection: Nonflammable

LEL/UEL: Not established (% by volume in air) Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this material.

Fire Fighting Instructions: As in any fire, wear self-contained breathing apparatus (pressure-demand, MSHA/NIOSH approved or equivalent) and full protective gear.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

Large Spills: Shut off leak if possible and safe to do so. Wear self-contained breathing apparatus and appropriate personal protective equipment. Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container for proper disposal. Do not flush to sewer. Avoid runoff into storm sewers and ditches, which lead to waterways.

Small Spills: Absorb spill with inert material (e.g. dry sand or earth), then place in a chemical waste container for proper disposal.

### SECTION 7: HANDLING AND STORAGE

Avoid prolonged or repeated contact with eyes, skin, and clothing. Wash hands before eating. Use with adequate ventilation. Avoid breathing product vapor or mist. Do not reuse this container. Store in a cool dry place away from heat, sparks and flame. Keep container closed when not in use. Do not store in direct sunlight. KEEP OUT OF REACH OF CHILDREN.

#### SECTION 8: EXPOSURE CONTROLS/PERSONNEL PROTECTION Exposure Guidelines: CHEMICAL NAME ACGIH TLV ACGIH STEL **OSHA PEL** 200 ppm 400 ppm 400 ppm Isopropanol NA Propylene glycol n-butyl ether NA NA Work/Hygienic Practices: Good general ventilation should be sufficient to control airborne levels. Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. If vapor concentration exceeds TLV, use NIOSH approved organic vapor cartridge respirator. Wear safety glasses with side shields (or goggles) and rubber or other chemically resistant gloves when handling this material. NFPA NFPA and HMIS Codes: HMIS Health 1 1 Flammability 1 1 0 0 Reactivity Personal Protection в

<u>TOXIC SUBSTANCES CONTROL ACT (TSCA).</u> All ingredients of this product are listed on the TSCA Inventory.

<u>WHMIS:</u> Class A

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

## **SECTION 16: OTHER INFORMATION**

This product is a Level 1 aerosol. Do not puncture or incinerate containers. Normal ventilation for standard manufacturing practices is usually adequate. Local exhaust should be used when large amounts are released.

To the best of our knowledge, the information contained herein is accurate. However, all materials may present unknown hazards and should be used with caution. In particular, improper use of our products and their inappropriate combination with other products and substances may produce harmful results which cannot be anticipated. Final determination of the suitability of any material is the sole responsibility of the user. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that may exist.
