

# Spray smart.

## 3M™ Fastbond™ Water-Based Contact Spray Adhesive 1090

Meeting sustainability requirements doesn't mean sacrificing performance. 3M™ Fastbond™ Water-Based Contact Spray Adhesive 1090 is an extremely versatile water-based adhesive that bonds strongly and quickly to a wide range of materials. Formulated with innovative 3M technology, it contains no solvents or flammable propellants and offers a higher percentage of solids than solvent-based aerosols, allowing each can to deliver more usable adhesive.

### A trusted formula.

Get the same 3M adhesives features — with a solventless air-propelled system. This aerosol is a water-based, low-odor version of 3M™ Hi-Strength 90 Spray Adhesive, mirroring our tried-and-true formula in applications and strength:

- High-strength, fast, contact-type adhesive
- Water-based; low volatile organic compounds (VOCs)
- Ideal for industrial maintenance and repair projects; large-surface bonding of wood, laminates, MDF, and other substrates; bonding for tilt-up construction; and more

## A more sustainable solution.

As emissions regulations around the world become increasingly stringent, 3M™ Fastbond™ Water-Based Contact Spray Adhesive 1090 can help support your regulatory compliance efforts.

**Water-based formula** that helps meet goals to lower volatile organic compounds (VOCs), solvents, and other targeted substances.

**Two separate tips** included in the cap to keep adhesive spraying smoothly.

Can support your efforts to ensure worker safety and to meet **environmental health and safety (EHS)** goals by being non-flammable, low-odor, and manufactured with a solvent-free process.

## Simple storage.

3M™ Fastbond™ Water-Based Contact Spray Adhesive 1090 does not require specialized storage for flammables. The can design prevents corrosion and extends product shelf life up to 18 months.
