EU REACH

An intended release of a chemical substance from this article is known to occur. (Refer to Regulation No 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Article 3(3)). The intended release is being treated as a chemical preparation. To the best of its knowledge, 3M has pre-registered and has registered/is intending to register all substances of its chemical preparations that it currently imports into and/or manufactures in the European Union that are in scope for (pre-)registration by 3M. It has a required safety data sheet.

EU REACH

Substances listed in Annex XIV of Regulation No 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) are not intentionally added to this product.

EU REACH

This product, including any article that the product is composed of, does contain at greater than 0.1% by weight a Substance of Very High Concern (SVHC) substance identified according to Article 59.1 of Regulation No 1907/2006 of the European Parliament and the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), per listing of candidates and Annex XIV. This declaration reflects the substances on the candidate SVHC list, effective January 2025. Refer to SDS or comment for identification of SVHC(s).

EU RoHS

This product contains a substance or substances that are present above the maximum concentration values (MCVs) set under EU Directive 2011/65/EU (RoHS recast/RoHS 2), as stated in Annex II to that directive. This means that the product contains one or more of the following substances above the following MCVs in one or more homogeneous materials within this product: (a) above 0.1% (by weight) for lead, mercury, hexavalent chromium, polybrominated biphenyls and/or polybrominated diphenyl ethers; and/or (b) above 0.01% (by weight) for cadmium.

New Zealand Article

This product is considered to be an article which does not release or otherwise result in exposure to a hazardous chemical under normal use conditions.
