# 3M Scotch-Weld<sup>™</sup> PUR Easy 250 Adhesive Applicator

Technical Bulletin September, 2014

## **Product Description**

 $3M^{TM}$  Scotch-Weld<sup>TM</sup> PUR Easy 250 Applicator is a self contained pneumatic applicator designed to dispense  $1/10^{th}$  gallon(300MI) cartridges of  $3M^{TM}$  PUR adhesives.

PURs are a family of one-component, moisture curing, urethane adhesives. These adhesives are applied warm and can bond a wide variety of substrates such as wood, fiber reinforced plastic (FRP) and many other plastics to themselves, to metal and to glass. See technical data sheets for additional information on 3M<sup>TM</sup> Scotch-Weld PUR adhesives.

#### **Features**

- Accepts 1/10<sup>th</sup> gallon (300Ml) aluminum cartridges
- Pneumatic dispensing (rated for 80 psi)
- UL rated

- Plastic disposable tip (supplied with 3M<sup>TM</sup> Scotch-Weld PUR adhesives)
- (US)120 VAC 50/60Hz, 1.7A, 200W
- 12 Month warranty

## 3M<sup>™</sup> Scotch-Weld<sup>™</sup> PUR Easy 250 Adhesive Applicator Technical Bulletin

Adhesive Warm - up	1/10 gallon Cartridges: Should be heated for a minimum of 45 minutes in either the 3M <sup>TM</sup> Pre-heater (US - Pn.23564) or Easy 250 PUR Adhesive Applicator (US - Pn. 23563). The PUR can be held at dispensing temperature for up to 16 hours* (total time in pre-heater and applicator). Refer to the 3M <sup>TM</sup> Polyurethane Reactive (PUR) Easy 250 Adhesive Applicator User's Manual for complete information on applicator requirements, cartridge loading, and adhesive application.  *Note: It is recommended that adhesive heated longer than this total time be discarded and fresh adhesive introduced.
Adhesive Application	After heating adhesive to 250°F (121°C) <sup>1</sup> , apply an adequate amount of 3M <sup>TM</sup> Scotch-Weld <sup>TM</sup> PUR Adhesive to one of the substrates to be bonded. Adhesive should only be applied to clean, dry surfaces. (See surface preparation below for additional information) For the best results apply the PUR only on substrates that are at ambient/room temperature prior to adhesive application.  Join the substrates within the recommended open time and hold/fixture the bonded part until the adhesive has adequately set.  Do not move or adjust surfaces after contact has been made, as inferior bond strength will result.  1-Dispensing temperature should never exceed 275°F (135°C)

## Precautionary Information

Refer to Product Label and Material Safety Data Sheet for health and safety information before using this product. For additional health and safety information, call 1-800-364-3577 or (651) 737-6501.

### **Technical Information**

The technical information, recommendations and other statements contained in this document are based upon tests or experience that 3M believes are reliable, but the accuracy or completeness of such information is not guaranteed.

#### **Product Use**

Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application.

### Warranty, Limited Remedy, and Disclaimer

Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

#### **Limitation of Liability**

Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.

This Industrial Adhesives and Tapes Division product was manufactured under a 3M quality system registered to ISO 9001 standards.
