Staticide® 7.9 Gallon ESD Wastebasket

Safe for ESD protected areas

Staticide® ESD Wastebaskets are ideal for manufacturing, inspection, quality control, research industries, and all ESD protected area where static control is crucial. This sturdy polypropylene wastebasket dissipates static electricity and does not tribogenerate. It contains no dyes, silicone, or plasticizers, making it suitable for all applications requiring a static-free workspace.

Is your garbage ESD safe? For more information regarding the importance of using ESD Wastebaskets, see our blog for details.
