Product #8107: Premium Wrist Strap Cord

Product #8156: Kit includes #8116 wrist strap,
#8107 coil cord, and alligator clip

Essential ESD wearables for military contractors

ACL's adjustable Camouflage Wrist Straps offer comfortable and secure personal grounding for working on electronics in ESD protected areas. Once connected to ground, the Camouflage Wrist Strap provides a safe path for eliminating static charges.

The flexible, elastic crochet fabric with non-conductive outer lining and conductive inner lining ensures full skin contact around the wrist. Silver conductive fibers are interwoven for maximum conductivity and minimum skin irritation. The Camouflage Wrist Strap is equipped with a "flip and grip" buckle for a secure adjustable fit. The buckle, comprised of static dissipative nylon, features a hypoallergenic jewelry-grade stainless steel back plate and a 4mm stud.

Ideal for military personnel, the Camouflage Wrist Strap is compatible with ACL's #8107 Premium Wrist Strap Cord. Together, the system provides one to five pounds of breakaway force.

FEATURES
