

Neoprene-dipped coating on a double insulating liner for improved resistance in hot conditions

- The glove combines the flexibility and chemical resistance of neoprene with the comfort and heat resistance of a soft thermal liner.
- The glove is designed to protect the users in applications where thermal and chemical risks are present.

Industries

- Machinery and Equipment
- Metal fabrication
- Chemical
- Automotive Aftermarket

Applications

- Press work
- Handling materials with sharp or rough edges
- Production line support & maintenance
- Unexpected leakages spills or other releases

Previously known as: Scorpio™ 19-026

Key Features

- Neoprene glove with a double insulating liner to better resist to heat and cold environment
- Designed to protect the users in applications where thermal and chemical risks are present
- Excellent mechanical and chemical properties. Unaffected by detergents and cleaning solutions. Excellent protection against greases and oils. Superior flexibility and grip
- Comfortable insulating double liner. Provides protection from intermittent contact with hot surfaces up to 180°C
- Longer version than the 19-024 for further protection

Performance Standards

CE 0493

Specifications
