

# 11-814

Second-skin design for high-precision handling

# Boosts precision and productivity with exceptional second-skin comfort and tactile control

- Second-Skin Design: Engineered with AEROFIT™
   Technology, an innovative, flexible foam nitrile
   coating that delivers improved tactility, sensitivity
   and a more comfortable, breathable glove feel.
- Premium Comfort: Our thinnest nitrile multi-purpose glove for all-day wear. Overwhelmingly preferred for precision handling\*.
- Proven Productivity: Testing showed that users wearing HyFlex safety gloves with AEROFIT™ Technology completed precision tasks faster than when using comparable gloves on the market\*.
- Certified Skin Safety: Dermatologically tested, free from harmful substances. Each pair is post-washed for clean, skin-safe wear.
- Touchscreen Compatibility: Enables seamless interaction with most touchscreen devices while keeping gloves on.
- \* Based on a survey of 52 glove wearers comparing Ansell gloves to the competitive gloves available on the market (May 2025); testing conducted with 11-844 gloves. Results may vary across other gloves in the series.

#### **Industries**

- Automotive
- Machinery and Equipment
- Aerospace

#### **Applications**

- Assembly of small parts
- Equipment repair & maintenance
- Applying finish to materials, products
- Fastening components, parts
- Seizing and finishing structural parts
- Assembling and mounting components
- Adjusting systems and screwing

# 11-814

## Second-skin design for high-precision handling

#### **Key Features**
