PORTABLE ESD

WORKSTATION KIT

Features: Botron has made it easy to set up an ESD safe workstation with our new Workstation In A Box. Everything you need in one box, offered with either a 2' x 3' or 2' x 4' table mat and a 3' x 5' floor mat (available in three different materials). Choose from any type of the following floor matting: .080" two layer premium gray rubber, .080" solid black rubber or 1/8" V-Groove. Included in each kit is an adjustable wrist strap set (B9008), floor mat ground (B9701) and a 10' long common point ground (B9703).

Features: Designed as a portable ESD safe work surface, Botron's Field Kits come with adjustable ESD wrist strap and dual ground coil cord. Offered in three styles; the standard kit with two pouches, pocket kit for ultra portability, and the pouch kit for organized storage. All Field Kits are made of dissipative vinyl and meet S20.20, Mil -1686 & HDBK - 263 standards.
