

Electrically Conductive Deck Plate #930

DRY AREA MATS | Premium ★★★★★

Electrically Conductive Deck Plate quickly drains static charge to protect components and equipment. Static dissipative surface ideal for the industrial environment. Deck plate top surface enhances traction and security. As an anti-static mat, Electrically Conductive Deck Plate will help retain safety and security in the office. PVC foam backing allows good anti-fatigue relief while standing

APPLICATION ENVIRONMENT:

Provides a heavy-duty solution for dry areas e.g.: Computer work station/terminal, Sensitive electronic equipment, and Electrical room.
