Description

Shortcut command pedal that is a convenient and efficient pedal for capturing images with the DinoCapture software. The foot pedal is compatible with **USB connected** Dino-Lite and Dino-Eye units using either DinoXcope for Mac computers or DinoCapture 2.0 for PC, making it a single accessory for all users. The MS17TSW-F1 foot pedal is great for operators that require great attention on what they are handling and may not have the ability to use their hands to capture an image. Great for doctors, assembly line workers, professionals, or casual users that require the additional ease of a foot pedal to take a picture.

- USB Cable Length: 9.5ft
- Note: MS17TSW-F1 will not function with Dino-Lite microscopes that are connected in Wireless modes. USB connection only.
