

MSHD-P1

\$19

Product Images

Description

The MSHD-P1 holster was built to hold and secure the Dino-Lite handheld microscopes onto a stand. It is great for custom applications where the user may have a compatible existing stand, or want to create a custom stand for the Dino-Lite. The MSHD-P1 holster holds the Dino-Lite microscopes securely at the location above the magnification dial with a thumbscrew. This holster connects to all Dino-Lite stands or even custom setups with 10mm slot holes.
