Description

Updated articulating 12" flex arm that provides additional viewing angles including the ability to rotate the view of the microscope without adjusting the position of the arm. This is designed for use with the MS35B / RK-06A (not included). The Flex arm can be positioned to desired viewing ranges. The addition viewing angles gives the user an in-depth visual inspection. *This is an optional accessory, the MS35B / RK-06A is not included.
