

WF-10

\$199

Product Images

Description

The WF-10 Connect allows compatible Dino-Lite USB models to be used wirelessly in connection with an iOS (iPhone/iPad) or Android app on any tablet, smartphone, or even in the DinoCapture software for Windows computers. The WiFi streamer is ideal for field work or presentations and can stream from one Dino-Lite to multiple devices. When using the iOS app or DinoCapture, users can perform measurements and take advantage of the automatic magnification reading (AMR) with compatible Dino-Lite AMR and measurement models. The WF-10 has a replaceable battery and can be used anywhere to create a WiFi signal for streaming the Dino-Lite live images. The free DinoConnect App for WF-10 can be downloaded from the App Store or Google Play.
