

F3000

3000A TRMS FLEX CLAMP METER

F3000 professional clamp is designed for AC TRMS current measurement up to 3000A achieving safety CAT IV 600V and CAT III 1000V according to IEC/EN61010-1 safety standard.

The clamp is designed with innovative flexible jaws which enables the operator to reach a high internal diameter of 110mm and perform easy measurements in any logistical conditions.

This model has a large LCD display (3000 counts), a Data HOLD feature and backlight making for easy reading in critical environments. The Auto power OFF feature allows preservation of its internal battery charge.

Features:

- TRMS measurement
- AC current up to 3000A
- Flexible jaws of high diameter
- Auto Range
- Data HOLD
- Backlight
- Auto Power OFF

Standard:

- Battery
- User manual
- Carrying bag

CAT III 1000V
