

Designed to efficiently catch metallic chips when drilling into metal enclosure boxes, this tool is essential for capturing metal debris to maintain a clean workspace. This magnetic chip catcher also features the following:

- Powerful magnets stick to metal enclosure boxes and effectively hold metallic chips while drilling, preventing them from scattering over workspaces
- Built-in inner cup allows you to dispose of the metallic chips without handling them directly
- Large 2.08" (52.8 mm) inside diameter makes this compatible with metal drill bits up to 3/8" in diameter
- Lifetime Guarantee

SPECIFICATIONS	
INSIDE DIAMETER	2.08" (52.8 mm)
DIMENSIONS	2.74 in x 2.74 in x 2 in (6.96 cm x 6.96 cm x 5.08 cm)
WEIGHT	0 lb (0 g)
UPC #	810132437168
