

Designed to wrap or unwrap 18-32 AWG wire quickly and easily, this patented wrap/unwrap tool uses backforce technology to apply a predetermined amount of pressure to each connection. This wrap/unwrap tool features the following:

- Backforce technology wraps wire with a predetermined amount of spring pressure, assuring each connection is wrapped at the same pressure every time. For best results, use 26-32 AWG wire.
- High-powered 3700 RPM motor can handle even the heaviest gauges of wire
- Dual-finger short-throw trigger and long handle are ergonomically certified for a comfortable experience
- Ergonomically designed with dual-finger short-throw trigger and long handle for preventing injury
- Permanently attached collet nut makes changing bits a cinch
- Rated for use up to 2500 cycles/day
- Bits and sleeves (required for operation and not included) can be purchased in Jonard's **Bits & Sleeves** section

SPECIFICATIONS	
KIT INCLUDES	Electric Wrap/Unwrap Tool with Backforce
MOTOR SPEED	4200 RPM
VOLTAGE	230V
UPC #	811490014480

MADE FOR LIFE
