

# DEFENDER™ 5000

Standard Bench Scale Bases

EasyConnect™

Counting function is not legal for trade

## *Durable Bases for the Most Demanding of Industrial Applications*

The OHAUS next generation Defender 5000 R and W Series bases offer two levels of durability for the most demanding of industrial applications. Both bases offer moisture-protected single-point load cells, steel construction, non-slip rubber adjustable feet, removable stainless steel weighing pans, and integrated leveling bubbles. Maximum non-approved resolution of 25,000d meets the needs of industrial weighing applications that require extreme accuracy.

### *Unique Features:*

- **Durably Constructed To Withstand Harsh Industrial Environments**

The R Series features a stainless steel platform, powder-painted steel frame and an aluminum load cell. The W series features a stainless steel platform, frame, and an IP67 washdown stainless steel loadcell.

- **Install Easily with the EasyConnect™ Feature**

The Defender 5000 bases are equipped with an EasyConnect cable, which allows instant configuration with Defender 5000 (TD52) indicators, speeding up installation.

- **Backed by Approvals for Legal-for-Trade Applications**

Defender 5000 bases are NTEP and Measurement Canada certified up to 6,250e which make them ideal for legal-for-trade use.

*Ingeniously Practical*

# DEFENDER™ 5000 Washdown Standard Bench Scale Bases

## Dimensions

## Compliance

- **Metrology:** Measurement Canada (NoA AM-6107); NTEP (CC 18-077), Class III
- **Compliance Marks:** CE

## Construction

R Series Base: 304-grade stainless steel platform, sand grey powder coated steel frame, aluminum load cell, level indicator

W Series Base: 304-grade stainless steel platform, stainless steel frame, stainless steel IP67 load cell, stainless steel level indicator
