TECHNICAL DATASHEET

A-System Static Mixer

Featuring the patented Xemex® technology.

The X2-A5-7T static mixer features patented Xemex® mixing technology in a compact 50 mm profile. Designed with a 5.3 mm internal diameter and 7-element PETG insert, it delivers superior 2K mixing with minimal adhesive waste.

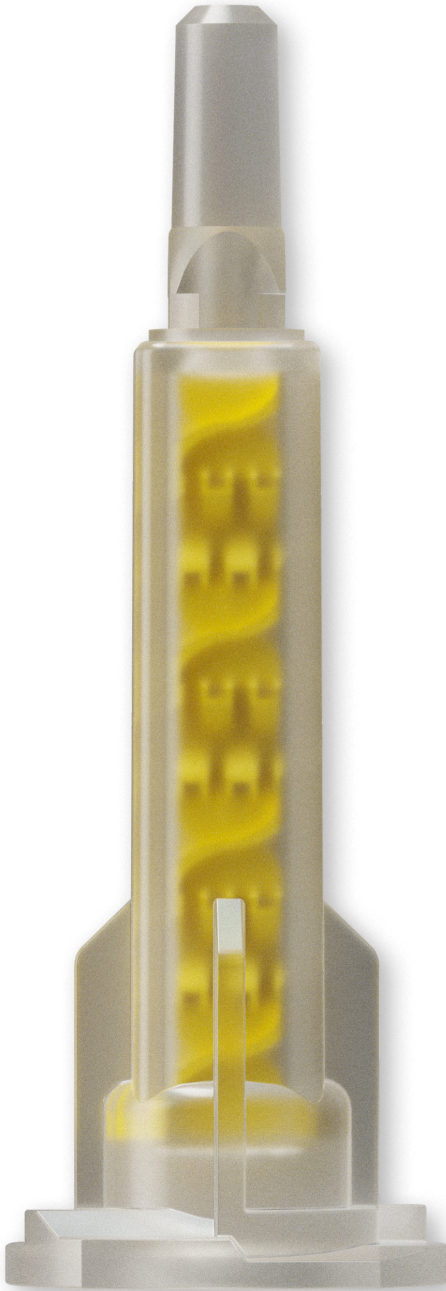

This bayonet-connected mixer is ideal for manual and pneumatic cartridge systems, offering precise control at the point of application. Maximizing efficiency with only 0.6 mL of retained volume, it is the most efficient mixer of its kind.

BENEFITS

- Achieves optimal 2K mix in just 7 Xemex® mixing elements
- Cuts adhesive waste with only 0.6 mL retained volume
- Compact 50 mm length enhances application control
- Bayonet “twist-lock” connection ensures secure, leak-free fit
- Supports various mix ratios: 1:1, 2:1, 4:1, 10:1
- Made in the USA for reliable, fast delivery

FEATURES

- Replaces 13 - 24 element mixers
- Compatible with: epoxies, methacrylates (MMA), urethanes, and silicones
