# C-System Static Mixer

Featuring the patented Xemex® technology.

The X2-C10-8L static mixer is engineered for high-volume adhesive applications that require both strong mixing performance and precise delivery.

With its wide 10.7 mm inner diameter and advanced Xemex insert, it delivers higher material flow with reduced backpressure.

The straight bell connection allows for easy integration with C-System dispensers, and the luer-lock tip provides clean, controlled dispensing. It's a durable, high-capacity solution with just 6.1 mL of retained waste.

## BENEFITS

- Luer-lock tip ensures clean, secure dispensing
- Wider 10.7 mm ID offers higher material flow rates with reduced backpressure
- 8 Xemex® elements deliver powerful, even mixing
- Straight bell standard C-System dispensers
- 6.1 mL retained volume reduces material loss
- Made in the USA with dependable lead times

## FEATURES

- Replaces 18 - 32 element mixers
- Compatible with: epoxies, methacrylates (MMA), urethanes, and silicones

Insert Material	Polyester	Inner Diameter	10.7 mm
Housing Material	Polypropylene	Insert Assembly	8 Elements
Connection Style	C-System (Bell 16.7 mm)	Total Length	110 mm
Nozzle Tip Design	Luer-Lock	Waste Volume	6.1 mL
