F-System Static Mixer

Featuring the patented Xemex® technology.

The X2-F10-8L static mixer is designed for high-volume adhesive applications requiring 1:1 or 2:1 mixing ratios.

With a wide 10.7 mm inner diameter and Xemex's 8-element insert, it delivers efficient mixing of viscous materials without compromising control. The Luer-lock outlet ensures clean, secure dispensing, and the F-System connection provides reliable compatibility with standard cartridges.

Its optimized internal geometry limits retained volume to just 7.9 mL—helping reduce waste while maintaining top-tier performance.

BENEFITS

- Made for 1:1 and 2:1 adhesive dispensing
- Wide 10.7 mm diameter allows high-volume flow
- Luer-lock tip provides secure, controlled application
- 8 Xemex® elements deliver powerful, consistent mixing
- 7.9 mL retained volume minimizes material loss
- Manufactured in the USA for fast, trusted delivery

FEATURES

- Replaces 18 - 32 element mixers
- Compatible with: epoxies, methacrylates (MMA), urethanes, and silicones

Insert Material	Polyester	Inner Diameter	10.7 mm
Housing Material	Polypropylene	Insert Assembly	8 Elements
Connection Style	F-System (1:1, 2:1)	Total Length	125 mm
Nozzle Tip Design	Luer-Lock	Waste Volume	7.9 mL
