RIP-TIE®

THE ORIGINAL CABLEWRAP

INTRODUCING THE
OPTICALWRAP

ATTACHES IN SECONDS LASTS A LIFETIME

For 35 years, Rip-Tie has been taking the frustration out of cable management and organization with innovative products that wrap, wrangle and control cords and cables. Our revolutionary designs have helped build a customer base that includes well-known industry leaders — such as LifeTouch, Panavision and General Dynamics — the U.S. military, educational and medical facilities throughout the world.

Exacting Standards

Whether you need to manage miles of cables on a Hollywood set or organize a myriad of computer cords in your home office, Rip-Tie has you covered. Our products are sewn using only the highest quality materials available. Most products are available in the ten EIA color code, and we have the ability to customize and adapt products to meet your specific needs.

Made in the USA

All Rip-Tie products are made in the USA, at our San Leandro, California facility. Quality products, fairly priced, and prompt, courteous service are the Rip-Tie standards. With rare exceptions, we ship within 24 hours from receipt of the purchase order.

Our goal: 100% customer satisfaction.

NEW PRODUCTS

OpticalWrap

The OpticalWrap provides optimal management of heavy-duty cables with connectors. The extra protection around the connector helps to prevent deterioration of optical camera cables.

The NEWEST addition to Rip-Tie's premium series of products. The OpticalWrap attaches to the connector to securely hold the cable and connector together, reducing the load on the cable during transportation and storage. Made from the same high quality material as our Premium series products, this wrap comes in 10 colors and will last for 10,000+ closures. Available with webbing, and with a write-on or custom logo pull-tab.

PRODUCT CODE	PRODUCT SIZE	MAXIMUM BUNDLE SIZE
OP-D14	1-1/2"x 14"	3.75"
OP-D18	1-1/2"x 18"	4"
OP-D22	1-1/2"x 22"	5.75"
OPTICALWRAP WEBBING

OPW-D18	1-1/2"x 18"	4"
OPW-D22	1-1/2"x 22"	5.75"

1.
Wrap the extra loop end around the connector.

2.
Wrap tge extra hook end onto the loop

3.
Secure the hook to the loop, creating a strong attachment to the connector.

4.
Wrap remainder of the wrap around the cable bundle to secure the wrapped cable and connector together.

RIP-TIE Lite Mini

The Rip-Tie Lite Mini is perfect for managing your small cables. From fiber optic, to mic stands, USB chargers, headphones, and everything in between. Wrap and release over 200 times. Available in 10 vivid colors.

Those who know Rip-Tie are likely familiar with our Rip-Tie Lite and our Rip-Tie Mini products. We are now bringing together the strengths of these two great products to offer the best of both worlds for your small cable organization needs. The compact size and shape of the Rip-Tie Mini, plus all the great colors and durability of the high-quality Rip-Tie Lite material.

PRODUCT CODE	PRODUCT SIZE	MAXIMUM BUNDLE SIZE
Y-55-Q10	1/4"x5-1/2"	1"

1.
Insert the tail through the die-cut slot.

2.
Pull Tail through to attach to one end of cable.

3.
Wrap the tail around your cable bundle, press together to secure.

TapeHolder

The TapeHolder is a high-quality hook and loop strap, that is perfect for managing tapes. The carabiner allows it to be hung where you need, preventing dirt from sticking to the side of your tape. Hang it from a cart or rack for transporting equipment, or on a stationary hook or truss to neatly manage large rolls of tape in one place.

The Tape Holder was developed based on the opinions of professionals working in the field. Similar to our CableCarrier, the size and specifications have been adapted to perfectly carry and manage tapes, rather than cables. Great for carrying and managing many different types of tape, perfect for a wide range of occupations including: camera assistants, sound/lighting/stage setup, electricians, packaging operations, and even florists/gardeners.

Rip-Track RFID CableWraps

Our most popular products in cable management have been enhanced with Radio Frequency Identification (RFID). From helping to find lost cables, to identifying valuable cable assets and keeping a record of every time your cable has been checked out and received back in, the new RFID enabled CableWrap will take your cable management to the next level.

The Rip-Track includes a unique 24-digit RF number, barcode, and human readable 9-digit number for seamless integration into your RFID inventory management software. This advanced technology can be used to make your entire staging and return process quicker and more accurate.

Rip-Track combines the strength of our industry leading cable management technology with the power of RFID to give you the best solution for your cables.

5-in-1 Solution				
1.	**2.**	**3.**	**4.**	**5.**
The Rip-Lock provides proper care and organization of your expensive cables	The RFID Chip allows you to quickly scan and track cables	Barcode scans and identifies cables for additional security	9-digit Human readable allows for tracking even with no reader present	Customizable pull-tab with your logo for instant brand recognition

Call or email us today to discuss how Rip-Track RFID technology can organize your cable inventory while saving you time and money.

RIP-LOCK CableWrap

Our most popular product in cable management has been enhanced with new patented technology. One end of the Rip-Lock CableWrap semi-permanently attaches to the cable, the other end has a pull tab for one-handed quick release. The lasting quality is great for professionals, including installation and events where cables will be used frequently.

Patent number: US #8,615,854, Japan #JP5624889

The Rip-Lock CableWrap is made for heavy-duty. Whether it's cable management on TV and movie sets or keeping regularly used cords organized at home, the Rip-Lock is sure to impress.

Keep all your cables properly wrapped and organized when not in use, and easily unwrap when they are needed again. The Rip-Lock remains locked on the cable ready to use again and again..

The **patented** Rip-Lock technology **attaches in seconds** and lasts for years.
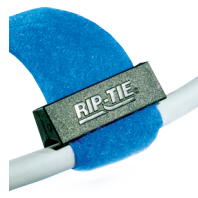

THE RIP-LOCK KEY

Original CableWrap

Our original patented CableWrap is anchored onto the cable with a single nylon tie. Secure the strap tightly around the cable bundle for easy and neat cable management. Now available in a variety of widths and attachment designs, our Original CableWrap is still in professional demand after 39 years!

Alternative Attachments

CableWraps with assorted attachments are easy on, easy off. The soft buckle fits gently yet snugly, so it won't damage sensitive cables. The durable Elastic Loop is great for quick attachment. The Hook & Loop attachment provides a secure, easily adjustable option to attach and protect cables.

CABLEWRAP WITH BUCKLE

The CableWrap with Buckle locks cables into place with a semi-permanent attachment. It can be used with a variety of cable diameters.

CinchStrap

CinchStraps act like a pulley system, thread one end through the buckle and pull to create a tight, secure bundle. Made for heavy-duty use, the extra holding power makes it a good choice for dynamic loads, and the non-magnetic buckles are safe for use around electrical or magnetic materials. When you need a pulley system to help wrangle your wires, reach for a CinchStrap.

CinchStrap-EG

The CinchStrap-EG's buckle cinch offers leverage to pull the strap as tight as needed, while the grommets attach to any rack or surface. Perfect for managing cable bundles in mobile carts, along walls, over doorways, and in wiring closets. The non-magnetic brass grommet spreads fastener load evenly without risk of ripping fabric.

RipWrap

RipWrap offers all the holding power of gaffer tape, but with none of the gummy residue. Great for use in theater, photography, film and television production. The polyester construction makes this wrap ideal for a variety of uses such as marine and outdoor installations. RipWrap, the least expensive hook and loop alternative to sticky tape, has nearly endless versatility! Wrap up plants for easy transport, secure your cables to a truss, or keep your pants from flapping in the wind when cycling, the possiblities are endless! Tested for 25+ release cycles.

UNITAG CABLE LABELS
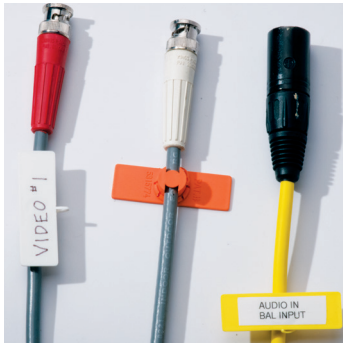

Unitag Cable Labels were designed to deal with the classic problem—how to easily distinguish one cable from another. Labels can be rotated 360 degrees for easy viewing (even in hard-to reach areas, like behind computer desks or in wiring closets). The labels are easy-to-install, interchangeable and reusable. Write directly on the surface with a marking pen or add your own printed label.

COLORS
AVAILABLE IN WHITE, BLUE, ORANGE AND YELLOW. ALSO AVAILABLE IN A 40 PACK OF ALL 4 COLORS (10 EACH).
