

## Product Datasheet

**Product NO. :** **758PL351E**

**Product Type:** High Precision Hard Metal Cutters

**Made in:** Switzerland

**Description:** The 351TX is a high precision cutter belonging to the tungsten carbide cutters family. This type of geometry eases the tips access in the working area, while the 351TX head dimensions support the cut. The short blade length transmits all the operator's cutting strength. The flush cutting edge is suitable to perform clean cuts on the hardest wires. The 351TX is equipped with an ESD Ergo-tek handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharges. The tungsten carbide insert blades are 82HRC hardness.

**Head Description:** Large Tapered, Tungsten carbide

**Cutting Edges:** Flush

**Tip material:** Tungsten carbide insert

**Body material:** High carbon-chromium low alloy steel (100Cr6)

**Handle material:** ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP

**Dimensions:**

|        |                      |
|--------|----------------------|
| OAL    | 123.0 mm – 4,84 inch |
| Width  | 60.0 mm – 2,36 inch  |
| Height | 22.0 mm – 0,87 inch  |
