**VIM**  
TOOLS

EST. 1931

The VIM Tool Company was started in 1931 as one of "The original mobile tool distributors" based out of Minneapolis, MN. The original owner would travel the country selling specialty automotive tools out of his businessman coupe. Using his \$200 WWI Sailor's Bonus as capital, Ray Durston founded the Flexible Carbon Scraper Co. in 1932 in Pasadena, California. He began manufacturing the company's first product, the Flexible Carbon Scraper.

By the Early 1940's, Ray Durston had expanded the Flexible Carbon Scraper Co and was manufacturing pliers, bits, wrenches, and some specialty automotive hand tools for tool distributors across the country, including The VIM Tool Company. As Ray's manufacturing operation grew, so did his need for his own brand name of tools. In 1944, The VIM Tool Company was acquired by Ray Durston and the trademark "VIM" was adopted to identify the company's expanded line of proprietary specialty automotive tools. In 1946 the Flexible Carbon Scraper Company became Durston Manufacturing Co. Ray continued to manufacture branded and unbranded product for various tool distribution companies across the country as well as for the VIM line.

In 1959, having outgrown the Pasadena facility, a new larger facility was built in La Verne, California. Both Durston Manufacturing Co. and VIM remained family owned and were passed down to Mel Durston, who continued to grow the business with the help of his two son-in-law's, Donovan Norton and Jim Maloney. Over the years, the plant was enlarged several times to facilitate the growth of product line, which currently includes over 10,000 products. Donovan and Jim eventually took over the business and helped grow the VIM line into the quality brand it is today. In 2020, the company was purchased by Luis Lopez, and moved to its new home in Tampa, FL. Luis had been the Director of Sales for almost a decade prior to taking over as owner.

In 2021 Durston Manufacturing Co. celebrated its 90th anniversary of providing quality products for the professional automotive industry. The company remains a family owned and operated business and will continue to offer the same level of service and quality that it has shown its customers over the years. Thank you for trusting VIM Tools.

# MISSION STATEMENT

VIM Tools has been servicing the Professional Automotive Tool Industry since 1931. Our focus is to cater to the Mobile Professional Tool Industry which is how VIM Tools started its own journey

Thanks to the advice and feedback provided by professional mechanics and tool testers, we are able to develop tools that are innovative to our industry. Their involvement in the process gives us an understanding of the importance of having quality tools that make any job as easy and seamless as possible while keeping a competitive and fair price.

VIM Tools takes pride in the quality and effectiveness of our products by constantly seeking the best materials and designs on the market. It is with this confidence that we offer a Limited Lifetime Warranty on our entire hardline. Lastly, we promise to use this drive and innovation as the foundation of every project.

Sincerely,

VIM Tools

VIM: /vim/ *noun* robust energy and enthusiasm

KEY:

S2 Steel: S2 steel is an alloy designed to resist breakage by shock; it presents high impact and vibration resistance.

Dual Drive: A socket or driver that has an inner Sq. Dr. (e.g. 1/4" Dr.) and an external hex Dr. (e.g. 11mm hex). The internal Dr. can be driven with a ratchet and the external Dr. with a wrench.

Magnetic feature

Spring-loaded mechanism

Set breakdowns available on our website and on most packaging

**VIM TOOLS** VIM Tools has been providing the mobile industry with high quality tools at a fair price since the early 1930's. VIM Tools manufactured product in California under Durston Manufacturing in the past and although we still manufacture some product in the U.S.A., we now mainly manufacture & import our product from Taiwan, always maintaining the same level of quality our customers are accustomed to seeing from VIM.

**RESEARCH AND DEVELOPMENT:** We are manufacturing professionals who work with market demand and innovative inventors to design and introduce new products on a regular basis. Our R&D goal is to design a tool that makes a tech's job quicker and easier for a fair price. The time saved on a job is extra cash in a tech's pocket.

**WARRANTY:** Most VIM products carry a Limited Lifetime Warranty. Any tool that fails during normal use will be repaired or replaced. To warranty a product, return the tool to the original place of purchase. If you are unable to return the tool through the original place of purchase, please visit [Vimtools.com](http://Vimtools.com) and submit images of the item along with our Warranty submission form. Any customer who chooses to warranty an item directly with VIM through the online warranty submission will be subject to the shipping and handling fee. This fee pays for the cost of freight and tracking for the replacement item(s).

#### **SAFETY:**

While we pride ourselves in the quality and dependability built into VIM Tools, we caution tool users that it is only prudent to follow common and accepted safety practices in their use.

- We recommend that safety goggles be worn when using any hand or machine powered tool
- Never apply excess leverage to a wrench or Dr. tool by means of a "cheater bar," nor should wrenches or Dr. tools be struck with hammers or other objects.
- Be sure that the tool used is properly sized to the fastener and that applied torque is not excessive for fastener or the tool.
- All tools should be kept clean, inspected from time to time, and replaced when they show signs of wear.
- Power sockets and drivers should always be used when other than hand power is applied.
- Be careful not to place yourself in a position that could result in bodily injury in the event of a failure.

**INVENTORS:** Please apply on our website for information on our Inventors Tool Design Program.

**DIMENSIONS:** All dimensions and descriptions contained in the catalog are subject to change without notice.

**LIABILITY:** Durston Manufacturing Company VIM Tools, shall not be liable for any consequential or incidental damages incurred by the purchaser. The exclusive remedy for any product found to be defective under the above warranties is limited to refund, repair, or replacement of the defective product.

**WHERE TO BUY VIM TOOLS:** VIM Tools are normally carried by your local Mobile Dealer and select brick and mortar authorized distributor across the country. If you would like to order the any of the tools listed in this catalog and are aving trouble finding a distributor, please visit our web page [vimtools.com](http://vimtools.com)

**FOR ITEMS NOT LISTED & SET COMPONENTS,**  
email us at [Sales@vimtools.com](mailto:Sales@vimtools.com) or visit us online at [www.VIMTools.com](http://www.VIMTools.com)
