▣ Applications

Automatic conveyor line	Sensing present / absence of transparent bottles
	Sensing passing objects in narrow place	**Label sensing of transparent bottles**
	Sensing fallen bottles	**Sensing passing of the cars**
	Sensing milk packs	**Sensing broken drill blades**
	※If a drill blade is thin, it may not be detected because BR4M-TDT□ detects the object over ø15mm. 
▣ Applications

<table>
<tr><td>Built-in Polarizing filter type</td><td>Sensing transparent vinyl</td></tr>
<tr><td> </td><td> </td></tr>
<tr><td>Sensing position of moving targets</td><td>Sensing position of an elevator</td></tr>
