# Accu-Tek Cutting Tweezers

15 AGW Stainless Steel with ESD Safe Comfort Grips

## Elevate Your Precision Cutting to the Next Level

These Accu-Tek Cutting Tweezers with ESD Safe Comfort Grips are an essential tool for accurately cutting copper, gold, silver, and magnetic wire! The cushioned ESD safe grips protects sensitive electronic components from static damage while providing extra comfort during extended use.

### Key Features

- **ESD Safe Comfort Grips:** Provides protection against electrostatic discharge, ensuring the safety of the user and the electronic component being handled
- **Ergonomic Design:** The cushioned grip offers a comfortable hold, allowing for precision work while reducing hand fatigue
- **Superior Hardness:** The cutting blades provide a hardness of 60 HRC for long-lasting durability and performance
- **420 Series Stainless Steel:** Provides a high level of strength and resistance to wear and tear
- **Angled-Blade Design:** Features durable hard metal blades, perfect for precision work and cutting in hard to reach areas
- **Versatile Cutting:** Designed to handle a variety of wire, including copper, gold, silver, and magnetic wire
