

Mighty Vue Inspector

UV 5 Diopter ESD Safe Magnifying Lamp w/Built-in Camera

Re-imagine Your Magnifying Lamp

The Mighty Vue Inspector is a magnifying lamp and camera inspection system in one self-contained unit, allowing you to view the image directly on an HDMI monitor, capture and store images on the included microSD Card, and even connect to your PC for viewing or relocating saved images, and additional software features.

Key Features Connect to an HD monitor via HDMI cable

- Connect to a PC via USB (software not included)
- View/Save Images on a micro SD card
- Ideal for sharing images on a screen & finding defects in quality control
- Frosted diffuser on LED lights help evenly distribute light
- ESD Safe - Dissipates electrostatic discharge
- LED color temperature controls
- Convenient handle to easily reposition lamp
- Lamp provides up to a 36" (914 mm) reach
- Attractive design w/ a diamond pattern beveled finish & stainless-steel band
