

**Software made simple
for busy people, like you**

Brady Workstation Software

Less stress. More efficient. Just what you're looking for.

Faster

If it feels like the world is moving faster than ever, you're right. So it's important to make every minute count, especially when you're creating labels and signs in the workplace. It should take just minutes to import data, design, format and print. If that's not the case, we can help you find a better solution – with software.

Easier

When it comes to software, choose a system that's easy to use, like Brady Workstation. It's got an intuitive interface and integrates easily with whatever work you do. Brady Workstation gives you time-saving features like auto-formatting and built-in templates. Plus, the software seamlessly organizes, manages and monitors your tasks, so you can spend more time on other things.

Better

It's true, software can be an investment. You invest financially and with your time as new software means new training for your employees. So, when you're ready to make that investment, choose to work with a company that can make the whole experience better.

- Single-point customer support
- Customized solutions
- Discounts dependent upon the licenses required

A photograph of an industrial facility, possibly a power plant or manufacturing plant. In the foreground, there are various pieces of machinery, including a blue machine with a 'NEFF' logo and a 'PRESS HERE' button. A worker in a black shirt and blue jeans is visible in the background, working at a station. A large red sign is partially visible on the right side of the image. The overall scene is dimly lit, with some bright spots from overhead lights.

Getting started

Since your software will be integrated with your workflow, get a suite that matches it: Safety and Facility, Product and Wire ID or Lab Identification. Each suite is a collection of apps designed to improve workplace performance.

Accessibility

Because this software is easy to access, intuitive and runs seamlessly, no in-depth training is needed. Just download Brady Workstation at BradyID.com/workstation, select the suites or apps you need, design your labels and print with your Brady printer. Use the built-in regulations, standards, pictograms and common phrases, or import your own data to create what you need: wire and cable labels, component labels, signs, pipe markers and lockout procedures.

A full solution

If you're looking for the right solution, try the whole solution. This involves everything you need – from start to finish. With Brady's full solution, you get:

- Top-performing materials
- Industrial desktop and portable printers
- Brady Workstation software and downloadable apps
- Tech support for set up, troubleshooting and even a first-time walk through, if you need it

An application powerhouse

You do a lot in a day, but how does it all fit in with software? Easy. Just find your activity on the left side, and connect the dots.

What sort of signs and labels are you looking to create?

Safety and Facility Identification Suite

Product and Wire Identification Suite

Laboratory Identification Suite

What sort of signs and labels are you looking to create?	Safety and Facility Identification Suite	Product and Wire Identification Suite	Laboratory Identification Suite
Arc flash labels	•		
Arrow tape	•		
Asset tags		•	
GHS labels	•		
Lean, gauge and inventory labels	•		
Patch panel labels		•	
Pipe markers	•		
Safety and facility signs	•		
Sleeve labels		•	
Slide labels			•
Terminal block labels		•	
Tissue cassette labels			•
Tube and vial labels			•
Valve tags	•		
Vial top labels			•
Wire and cable labels (wrap and flag)		•	

What else are you looking to do?

Take advantage of these additional capabilities, included in all suites:

- Import data from spreadsheets and other file types
- Create labels based on numeric and alphanumeric sequences
- Create barcodes with human readable text
- Create barcodes or text through the combination of multiple input fields
- Create templates with locked and editable fields
- Set elements on label to editable or locked
- Categorized graphics library with hundreds of standardized graphics
- Import custom graphics
- Group text fields and graphics
- Align all objects on label to desired spec
- Flip text vertically or horizontally on label
- Group multiple files together to print all at once

Brady Workstation suites

Safety and Facility Identification Suite

Make colorful visuals to keep your facility safe and compliant. This group of apps helps you create signs, labels, pipe markers and lean visuals. Use predefined templates or customize to suit your needs.
