Honeywell BW[™] Solo

Serviceable Single-Gas Detector

The Honeywell BW[™] Solo is easy to operate and service and includes an extensive selection of sensor options. It can help reduce the cost of ownership for serviceable single-gas detectors and includes a wireless option for enabling connected workers. The profile is small and lightweight, and the design is ruggedized for years of reliable service. No need to take apart the Honeywell BW[™] Solo for common maintenance tasks; simply pop off the front door to replace a sensor or filter, or remove a single screw for battery replacement.

Optional wireless connectivity enables additional capabilities such as dock-less transfer of data and event logs, and real-time monitoring of worker safety.
