201-7100 Precision Tool Set

Nine precision-crafted tools for detailed circuit board work.

- A pocket pen microscope with 25X measuring reticle.
- A high carbon needle file.
- Mild abrader for removing oxides and contaminants.
- A sharp dental-style probe.
- A curved scraper with a hardened, stainless steel tip.
- A square scraper with a hardened, stainless steel tip.
- A fine-point stainless steel tweezer for precision work.
- A self-locking tweezer for hands-free gripping.
- A knife with an angled blade for precise cutting, scraping, and trimming.
- An steel mesh tool tray to keep tools neat and organized.

Tools and Materials		
Qty	Part No.	Description
