Format: Fiskars Web Page

Name: **Smooth-action Anvil Pruner**

**Perfect for cutting stems and light branches up to 5/8" diameter, with a maintenance-free bearing-drive design.**

Our Smooth-action Anvil Pruner features a self-lubricating bearing drive for maintenance-free operation when you're taking on light pruning tasks. The fully hardened, precision-ground steel blade stays sharp, and a rust-resistant, low-friction coating makes cutting even easier. Steel construction offers lasting toughness, and a handle with non-slip grips provides excellent control.

- Ideal for cutting stems and light branches
- Self-lubricating, maintenance-free bearing drive
- Fully hardened, precision-ground steel blade stays sharp, even through heavy use
- Low-friction coating helps the blade glide through wood, prevents the blade from gumming up with sap and debris and helps the blade resist rust
- Steel construction provides excellent durability
- Non-slip grips
- Easy-open lock protects the blade during transport and storage
- Anvil blade style
- Maximum cutting capacity: 5/8" dia.
- Lifetime warranty

#### **FAQs:**

##### **How do I care for my pruner?**

- Wipe clean after each use to prevent sap build-up
- Lightly oil blade for longer product life
