

# Advanced power quality analysis

Fast, easy setup.  
One-touch reporting.  
Better results.

The Fluke 1748 Power Quality Logger provides you with the data you need to quickly and easily troubleshoot, quantify energy usage and analyze power distribution systems.

- Full IEC 61000-4-30 Class A measurement compliance
- Advanced digital autocorrect connection verification
- Automatic logging of over 500 parameters
- One-touch power quality health reporting

Take power quality analysis, system planning and demand management to the next level
