High-Capacity Module with Relay Card

## Highlights

The High-Capacity Module Kit for 1586A Super-DAQ Precision Temperature Scanner comes with everything you need to get started making multi-channel data logging measurements with your 1586A. To configure the 1586A yourself for use with the high-capacity module, you will need the relay card that is included with the kit. The kit also includes the 1586-2586 High-Capacity Module with universal input channels designed to measure temperature, resistance, dc voltage, and dc current for data acquisition applications where channel count and scan speed are important.

Includes:

- 1586-2586 High-Capacity Module
- Relay Card
