

TECHNICAL DATA

Fluke i17XX-flex3000 iFlex® Current Clamp

Product overview: Fluke i17XX-flex3000 iFlex® Current Clamp

The Fluke 17XX 24 inch iFlex® flexible current probes expand the measurement range of the Fluke 17XX Energy or Power Logger to 3000A AC while providing the ultimate measurement flexibility. The iFlex® probes connect directly to the logger, displaying current measurements without error prone scaling factors. The 1.8 m (6 ft) cord allows separation between the measurement location and the logger making it easier to view the display. Fluke 17XX iFlex® cables are available in 12, 24, and 36 inch.
