

Adapters for the SimpliFiber Pro

You can change the meter's input connector to connect to SC, ST, LC, and FC fiber connectors.

You only need to order one adapter for the Input, unlike the CertiFiber Pro series which requires two adapters for the main and remote unit.

Adapter type	Item Number
SC	NFA-SC-SINGLE
ST	NFA-ST-SINGLE
LC	NFA-LC-SINGLE
FC	NFA-FC-SINGLE
