

Heavy Duty ESD Turntable

The 500+ lbs capacity ESD Turntable is an ideal solution for 360 degree access to heavy assemblies or tools.

Conductive without the need for wires, this solution allows for infinite turns and pairs beautifully with our Ergo Lift Cart for endless ergonomic freedom and adjustability.

Its conductivity makes for easy pairing with an ESD mat for dissipative properties.

Options:

- Diameter (18" and 22" standard)
- Locking System

Model: ETX418L
18" Diameter ESD Turntable with 500+ lbs Capacity with Locking System.
