

Product Datasheet

Product code: **ES141TX.CR.BGO**

Product type: High Precision Hard Metal Cutters

Made in: Switzerland

Description: The 141TX is a high precision cutter belonging to the small Tungsten Carbide cutters family. The oval geometry provides excellent resistance, while the 141TX head dimensions offer the best advantage to access small areas. The short blade length transmits the operator's full cutting force. The flush cutting edge is suitable to perform clean cuts on the hardest wires. The 141TX is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The Tungsten Carbide insert blades are 82HRC hardness.

Head description: Small Oval, Tungsten carbide

Cutting edges: Flush

Cutting capacity: soft wire 0.10-0.50 mm (38-24 AWG)

Blade material: tungsten carbide

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle coating: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP

Picture:

Dimensions:
 OAL 120 mm – 4.724 inch
 Width 60 mm – 2.362 inch
 Height 18 mm – 0.709 inch
