

Product Datasheet

Product code: ES5233.CR.BG

Product type: High Precision Cutters

Made in: Switzerland

Description: The 5233 is a high precision cutter belonging to the special cutter family. The 25-degree angled micro tips provide the best advantage to access micro areas. The full-flush cutting edge is suitable to perform very clean cuts on small size material. The 5233 is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The blades are hardened to 67HRC hardness. 5233 is also equipped with an anti-shock system that considerably reduces mechanical shock to the component and prevents the blades from breakage.

Head description: Oblique Micro Tip

Cutting edges: Full-Flush

Cutting capacity: soft wire 0.1-0.8 mm (38-20 AWG)

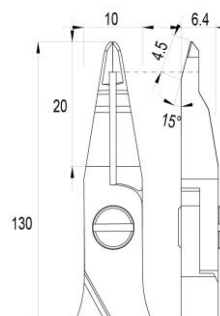

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle coating: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP
