

Product Datasheet

Product code: **ES6024S.CR.BG**

Product type: High Precision Pliers

Made in: Switzerland

Description: The 6024S is a high precision plier belonging to the long snipe nose plier family. The long jaw length improves the ease of the hold while the thicker tip makes the hold safer. The serrated surface on the jaw increases its holding capacity. The 6024 is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The jaws are hardened to 45HRC hardness.

Head description: Snipe Nose Strong, Serrated Jaws

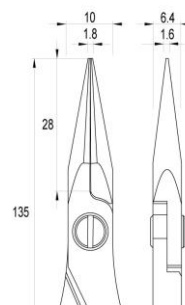

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle coating: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP
