Changing JTT Heater Hose Set

Note: Only perform this operation when the station is turned off.

Use a spanner to unscrew the nut (1) and remove the tool hose (2).

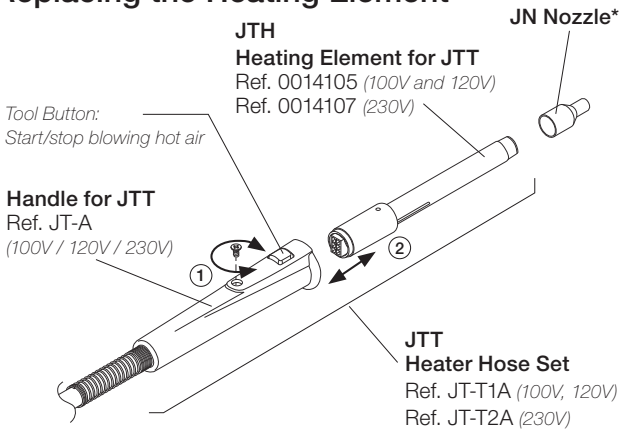

Insert the new hose, make sure it is pushed all the way into the connector (2), and tighten the nut (1).

Features

JTT Heater Hose Set allows to repair medium and large SMDs. It works with JTSE Control Unit and JN Nozzles.

Replacing the Heating Element

Note: Only perform this operation when the heating element is cold and the unit is disconnected from the mains.

Loosen the screw (1) and pull the worn heating element out of the handle (2).

Insert the new heating element, make sure it is pushed all the way in (2) and tighten the screw (1).

** not included, sold separately*
