- Tower legs mount flush for a clean, integrated look
- Easy post-purchase installation
- Designed for indoor environments

Description

Easily elevate your Utili-Guard+™ flammable cabinet with the Tower Leg Kit, designed to provide a sleek, raised, and stable platform for any indoor storage environment. These flush-mounted steel legs instantly lift your cabinet off the floor, making it easier to clean underneath and improving visual aesthetics in laboratories, facilities, or any workplace where a high-end look and convenience matter.

NOTE: The Tower Leg Kit is currently ONLY compatible with 30-, 45-, and 90-gallon sizes of Utili-Guard+ flammable cabinets. Legs are easily installed after purchase and include all necessary hardware. Each base cabinet also comes standard with adjustable leveling legs for precise setup on uneven surfaces.

Choose the Tower Leg Kit for Utili-Guard+ flammable safety cabinets when you want a polished, professional appearance and practical clearance beneath your cabinet, ideal for modern labs, cleanrooms, or wherever elevated, stationary storage is preferred. For users with rugged or mobile needs, pair instead with the [Skid Leg Kit 29034](#), designed for forklift maneuverability and outdoor use.
