

# FISH TAPES

## FISH TAPES

**Multi-grip handle** gives you a firm, steady grip as you pull tape from the case

**Polypropylene case and handle** offer impact resistance

**Slip-resistant housing** geometry improves winding power and reduces binding

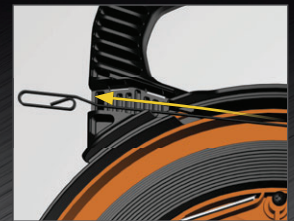

Available in steel, fiberglass, and stainless steel with a wide variety of tips

Laser etched markings in 1' (0.3 m) increments allow you to more accurately measure the depth of conduit runs and determine the amount of tape left to pay out

Designed to decrease payout effort by optimizing the tape payout angle

Unique, low friction case reduces binding

### Multi-Groove Fiberglass Fish Tapes

- Rigidity for long distance
- Less surface contact when pushing through crowded conduit for smoother tape feeding
- Durable 7" (17.8 cm) leader helps push through crowded conduit
- Available resin eyelet for total non-conductivity
- Repair kits (Cat. Nos. 56115 and 56025) available to replace tips
- Replacement metal eyelets (Cat. No. 56116) and spiral steel leaders (Cat. No. 56120) available
