

LEGSOLVE-IT

Ready to Use *Citrus Based *Industrial Cleaner/Non-Butyl Stripper *
Removes: Epoxy Grout Haze, Graffiti, Tar, Grease, Gum, etc.

LEGSOLVE-IT is an environmentally friendly product that is water based and fully biodegradable. It has been extensively tested in actual use trials as well as laboratory settings to ensure the products ability to clean and remove various problem stains.

DIRECTIONS FOR USE:

1. Use at 1-2 ozs/gallon of water for daily cleaning. At this dilution rate LEGSOLVE-IT will clean approximately 20,000 ft².
2. Use as final clean up solution for epoxy grout installation. Mix at 3 ozs/gallon of water and wipe tile clean with grout sponge or cloth.
3. To remove grout haze that has been left on tile use at 25-50% strength and apply liberally to the area to be cleaned. Break large areas up into 10' x10' sections. Allow solution to soak for a few minutes, **DO NOT ALLOW TO DRY**. Re-wet areas as necessary. Scrub with low speed floor machine with aggressive pad or brush. Wet vacuum and rinse area with clear water. May be used with TEXSPAR or TEXSPAR PLUS for stubborn jobs.
4. Use full strength to remove tar, stains, graffiti, etc. Allow to soak for 10 - 15 minutes. Agitate with scrubbing brush and rinse. TEXSPAR or TEXSPAR PLUS may be used for stubborn stains.
