

# MPQ2000 ACCESSORIES

## 1000A Wide Split Core Current Clamp - CP-1000WCE-ID

Operates with the MPQ Series & PA9 Series Instruments  
MPQ series auto identifies CT range. Inner ID = 5.08cm (2")

## 600ADC Current Clamp - CP-600DC-ID

Measures both AC and DC current. Ideal for solar applications. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identifies CT range.  
Inner ID = 5.08cm (2")

## Earth Lead - 2008-101

Safety earth lead for grounding the instrument to earth.  
Operates with the MPQ Series Instruments.

## Set of 3 Plunger Clips

Easy connection even in tight locations. Don't risk alligator clips falling off. Operates with the MPQ Series & PA9 Series Instruments.

## Set of 3 Fused Lead Adapters - 1008-645

These inline fuse adapters simply connect to the end of your voltage leads. Protect your valuable assets. Operates with the MPQ Series Instruments.

## In Line Fuses - 90020-560

0.8 Amp fast blow fuse for the 90017-088 fused adapter. Operates with the MPQ Series instrument.

## Jumper Kit - CA-PA9-JMP-KIT

Used for jumping the neutral channels or each input together for configurations that utilize common neutrals. Operates with the MPQ 2000 & PA9 Series Instruments.

## Carry Bags - 2007-626-1

Carry Bag for MPQ2000. Enough room for the MPQ2000, all the accessories a full set of current clamps and tools.

## Single Phase Cord- Cord for US Outlets = CA-PA9A Cord for UK Outlets = CA-PA9B Cord for EU Outlets = CA-PA9E

Allows for simple and easy measurement of single phase. Just connect to the instrument and plug into a standard outlet. Operates with the MPQ Series & PA9 Series Instruments.

# MPQ2000 ACCESSORIES

## 4 Range Auto Identifying Flex - **CT -MCCV6000-18 or MCCV6000-27**

No batteries required, powered by instrument. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identify the ranges up to 6000A.  
"-18" - Inner ID = 18cm (7")    "-27" - Inner ID = 27cm (10.6")

## Split Core Current Clamp – **CP-5CE-ID, CP-20CE-ID & CP-100CE-ID**

Measures both AC and DC current. Ideal for solar applications. Operates with the MPQ Series & PA9 Series Instruments. MPQ series auto identifies CT range. Inner ID = 5.08cm (2")

## Shunt Adapter – **CPA9-1 & CPA9-5**

Adapts CT's with banana jack leads and a current output to operate with the MPQ Series and the PA9 Series instruments. The probes will NOT be self-identifying using this adapter.  
Range: "CPA9-1" = 1A & "CPA9-5" = 5A

## Power Quality Simulator – **MPQ-SIM-01**

Ideal for training personnel on power quality issues. Powered off a single phase 12V AC adapter and creates a 3 phase source. Create dips, swells, transients, phase shifts, harmonics and power reversals. Teach power and energy, power quality as well as power factor. Operates with the MPQ Series & PA9 Series Instruments

## MPQ2000 Power Cords - **Cord and Plug for US Outlets = 1007-980** **Cord and Plug for UK Outlets = 1007-981** **Cord and Plug for EU Outlets = 1007-982**

Used for powering the MPQ2000 instrument from the auxiliary input. Plugs into standard outlets.

## Internal Battery Pack – **2008-369**

Internal NiMH battery for the MPQ Series instrument.

## MPQ2000 Lead Set

Voltage lead set for the MPQ2000. Includes 4 sets of voltage leads for isolated inputs, 3 jumper wires, 8 Crocodile Clips, 1 earth lead and color markers to customize the leads to your color code. Also suitable for use with the PA9 Series.
