nimbl[®] Compact Supply Carts and Accessories

Compact in size. Big in function.

The nimbl[®] Cart is thoughtfully engineered with a small footprint and a lightweight, open-concept design, making it exceptionally easy to move and position wherever it's needed. Its storage capacity is carefully balanced, providing ample space to keep essential items organized and accessible, without overwhelming users with excess compartments or limiting storage to the point of inconvenience. To further support diverse workflows, the Nimbl Cart offers a wide range of accessories, ensuring it can be tailored to meet the unique needs of any setting.

- **Modern Aesthetic-** Sleek modern design with neutral color scheme and choice of accent colors provides a professional appearance that will blend with any interior design.
- **Compact Design-** A modest worksurface, ample storage, and vast accessory offering all in a small footprint provides everything needed on-the-go.
- **Easy Mobility-** The smaller, lighter, compact design, coupled with 5" (127 mm) casters, makes the cart easier to move, reposition, and use everywhere it is needed.
- **Ergonomic Worksurface-** Set at an ergonomic standing height, the spacious work surface features a smooth writing/prep area with a raised perimeter and integrated rear utility trays positioned conveniently within easy reach, and push handle conveniently located at the front for easy grab-and-go.
- **Identifiable-** Five colors options for drawer pulls and vertical accent strips provides the ability to differentiate carts by application or function.

Specifications

- **Cart Frame-** Rigid aluminum uprights, hybrid metal/polymer base, and epoxy coated metal cross-channels provide a sturdy framework to support the mobility and various storage options provided by Nimbl[®].
- **Base-** Polymer caster runners and baked-on epoxy-coated cold-rolled steel (CRS) cross bars and dust cover.
- **Uprights-** Extruded clear anodized aluminum uprights with built-in channel for accessory attachment and color accent strip. Uprights are available in three heights to provide options for storage above the worksurface.
- **Casters-** Four 5" (127mm) diameter total-lock casters with polyurethane tread and polymer horn. Casters are maintenance-free, medical-grade, and designed for smooth, quiet rolling.
- **Lower Rail-** Baked-on epoxy-coated CRS rail provides structural support for the cart frame and is included on all carts without a drawer module or shelf. The rail doubles as an accessory rail for hanging bins or baskets.
- **Pushbutton Lock** - 5-button mechanical pushbutton lock provides battery-free key-less security using a programmable sequence of five pushbuttons to control access.
- **Lower Accessories-** In addition or in place of to the accessory rail or drawer module, additional optional accessories below the worksurface include an epoxy-coated full-size shelf or lockable tote box assembly.
- **Drawer Modules-** Epoxy-coated CRS keylock drawer module provides the structural support for the cart frame. It is available in six different heights to accommodate various combinations of drawers. Pushbutton mechanical lock is an optional upgrade.
- **Drawers-** Drawers are epoxy-coated CRS and available in two heights, 3"H (25mm) and 6"H (152mm). Drawers include polymer drawer pulls in choice of five colors and can be equipped with optional drawer dividers.
- **Upright Accessories-** The uprights offers external accessory via its accessory channel along the entire height of the upright. Accessory rail, shelf and/or tablet arm can be mounted between the uprights that extend above the worksurface. Rails and shelves are epoxy-coated CRS. Accessory rail can be equipped with a variety of accessories like bins, trays, label/tape dispensers and more. External rail accessories can be equipped with bins, wastebaskets, containers, sanitizer holders, and more.
