TEST LEAD WIRE

WTL Series

APPLICATIONS:

- · Flexible test probes
- High voltage apparatus

FEATURES:

- 18 AWG (65 x 36) tin copper wire
- Insulation thickness = 0.047"
- Resists oils, acids, alkalies, ozone, & solvents
- OSHA acceptable

SPECIFICATIONS:

• Working Voltage: 5000 Volts

• Breakdown Voltage: 20,000 Volts

• Insulation: EPDM rubber (-30° to +90°C)

• Spools: 50 feet & 100 feet
