## Technical Specification Durometer PCE-DX-AS

- With drag needle
- Measures in different hardness units
- A 360° dial
- Highly accurate
- Meets with all standards
- Comes with a small carrying case

### Technical specifications

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Force of pressure | 0 to 12.5 N                                             |
| Penetrating body  | 35° (according to Shore A)                              |
| Diameter of dial  | 57mm                                                    |
| Total length      | 110mm                                                   |
| Displayed range   | 0 to 100                                                |
| Measurement range | 10 to 90<br>(pressure diminishes below 10 and above 90) |
| Margin of error   | ±1                                                      |
| Division of scale | 1                                                       |
| Drag needle       | yes                                                     |
| Weight            | 160g                                                    |
