

Safety Zone® Total Grip Latex Exam Grade Gloves, Powder-Free, 10x100, Natural, 8 mil - Small

TOTAL GRIP® Natural White Latex Powder Free Exam Gloves are the preferred latex gloves of the automotive industry. The natural white color helps to show any dirt, grease or grime on your hands while working. These gloves run on an average of 8 mil thick meaning you have more and a longer time frame of protection with the increased thickness. TOTAL GRIP® latex gloves will save you money compared to similar gloves from other brands.

ProWorks branding is changing to Safety Zone®. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted.

Key Features

- Latex
