

Static Shielding Tubing 1000 Series

This transparent metal-in static shielding tubing is designed to provide a static safe environment for ESD sensitive electronic devices. The tubing is heat sealable.

SCS Static Shielding Tubing 1000 Series is manufactured from a polyester, metal, polyethylene laminate. The polyester dielectric in concert with the metal layer provides discharge shielding. The exterior being static dissipative allows electrostatic charges to be removed when grounded.

Meets ANSI/ESD S20.20, Packaging standard ANSI/ESD S541
